REFERENCES

"I started coaching Levi acting online about 12 months ago and was immediately struck by his ability to take direction, interpret complex text, and commit fully to character. His passion and skill are remarkable for someone so young. When I later directed him on set for his showreel scene, I was again impressed by his playfulness, focus, and calm under pressure. Levi is a natural performer with a bright future ahead.

Director (Drift)

Actor (X-Men Origins: Wolverine / Home and Away)

I am impressed with Levi's talent, and at such a young age. He has a natural ability and presence, which allowed him to portray the various emotions he was required to show and to create a believable character. I was amazed at his focus, both in rehearsals and on the day the film was shot. Levi has the discipline to stay focused on a film set, even after taking part in dozens of takes per scene. Ashlyn and Levi had never met before the reel project, and he showed maturity and confidence as they got to know each other and supported each other throughout the process. I have been teaching and directing High School students for thirty years, and I can see not only his ability as a performer but also the enjoyment he had in making this film.
